

It's the rope
you've been waiting for.
Take it for a ride.

KM Pro

MADE IN 

KM Pro is specifically manufactured to the needs of the rope access industry and perfectly combines price and performance. The rope access world requires workhorse ropes that perform at the highest level under constant use in often challenging situations. KM copes with these challenges and offers superior strength, handling, tenacity, abrasion resistance and low elongation. In addition, we were able to produce this high functioning rope at a lower cost than similar ropes, especially those with the NFPA price tag. KM Pro is perfectly suited for tower climbing, solar installations, cleaning, inspections, maintenance or work on wind turbines.

Features

- Specially made for rope access industry
- High strength construction
- UV and chemical resistant sheath
- Perfect blend of price and performance

Specifications

Core: Nylon
Cover: Polyester
Standard: EN 1891A
 CI 1801
Braid: 32

CE test results per EN 1891
