

BLAST

Super comfortable and lightweight helmet for work at heights. Thanks to its well thought-out design and numerous features, it fits like a glove and you'll want to wear it all day long.

DESCRIPTION

Lightweight construction with EPS liner, which is found in comfy sports helmets, will keep you comfortable even when working long hours.

Clips for attaching a head lamp are recessed thus snag-free when dressing or working.

Thanks to reflective stickers, no one will miss you even in low visibility.

You can tune the depth as needed with the height-adjustable forehead band, so the helmet won't fall backwards or into your eyes.

Side buckles under the ears with adjustable positioning ensure ideal routing of the straps around the ears and under the chin.

Newly designed chin buckle is low-profile and works like a charm.

Helmet is ventilated by vent holes which are covered by a steel grille.

Smaller integrated slots are designed for connecting the Singing Rock COVERshield.

Integrated universal 30 mm euro slots are compatible with most hearing protectors on the market as well as the Singing Rock LAMPFIX lamp holder.

For easy transport and storage, the back part of the headband with the adjustment wheel can be folded into the shell.

Headband circumference can be easily adjusted between 53-61 cm using the rear rotary wheel.

KEY FEATURES

- optimally deep profile ensures better stability on the head
- available in 6 colours with a modern look

STANDARDS

FEATURES

420 g / 14.8 oz	53-61 cm 20.8-24 in	usage -10/+50 °C	unique number	3 YEARS warranty

MATERIALS

- 55% ABS/PC
- 9% EPS
- 9% PP
- 8% PA
- 6% POM
- 4% steel
- 4% PES
- 3% PA 30 GF
- 1% rubber
